

STEEL & GLASS

steelART DOORS

20mm profiles enable construction of light and modern structures.

SteelART doors are a perfect fit for modern interiors. They also add character to loft-style apartments. Their minimalism will enhance the design of your living room or a study. Steel ART doors can be a showcase of your office.

The maximal possible glass area lights up the space. SteelART doors do away with the classic, hermetic layout of rooms

CHOOSE DURABILITY WITHOUT COMPROMISING THE LIGHTNESS

The specially designed shape of the profiles, the highest quality galvanised steel, and the 2mm wall of the steel profiles make it possible to produce exceptionally thin door frames without compromising durability, and lasting for decades.

INVITE ART TO YOUR HOUSE

SteelART doors are a perfect fit for modern interiors. They also add character to loft-style apartments. Their minimalism will enhance the design of your living room or a study.

steel ART doors can be a showcase of your office.

BRING LIGHT AND SPACE TO YOUR INTERIORS

You don't want to disturb the space and light of your interiors? Or do you have rooms without windows or an office with limited natural lighting?

SteelART doors help retain light in rooms, bring light to dark interiors and keep them light and natural.

PERFECT MICROSTRUCTURE AND COLOURS FOR YEARS AND YEARS

SteelART doors are powder painted, keeping the highest quality. Deeply matte, fine structure paint coat enhances the door appearance. Due to the uniform microstructure that disperses the light, the doors gain a noble appearance. The coat is applied using the powder spraying method, which ensures a durable and hard structure.

SAFETY

The specially designed shape of the profiles ensures a sturdy structure, while the innovative method of glass fixing provides high durability in use.

YOU CAN CHOOSE WHATEVER YOU WANT

A lever-handle in the loft-style or traditional? Or maybe a steel pull handle? Transparent tempered glass or matte laminated glass?

Black, deep matte that subtly enhances the style, or pearly red? 900 mm or 800mm wide door, or maybe a customised solution?

Fully glazed door, a door with a bottom panel, 4 or 8 panels inside? Safe bottom panel. Choose a solution that meets your needs and taste.
